

Saturday in the Apiary

September 10, 2016 from 10 am to 12 pm

[OSU Central Oregon Ag Research Center](#)

850 NW Dogwood Lane

Madras, OR 97741

541-475-7107

September is critical to find out if our winter preparations we started in August is working out. Did mite levels drop? How do the colonies look after being treated with Apiguard, Hopguard, MAQS or Apivar? What to do next if treatments were not sufficient enough? Feeding: necessary? Did the bees get any benefit from rabbit brush?

Participants in the Oregon Master Beekeeping Program

- Apprentices: Earn an education point! If you like to work on your seasonal checklist, please let Heike know ahead of time.
- Journeys: Like to lead a group through one of the hives? Please, let Heike know ahead of time and you can earn service points!

Bring your hat/veil/gloves and water bottle. Plus a brown bag lunch if you have time afterwards to stay a little bit longer. We could discuss questions over lunch, if you like. RSVP Heike Williams at heike.williams@oregonstate.edu for details and notification of possible changes. This event is weather dependent. Looking forward to seeing you there!

"Saturday in the Apiary" is an opportunity to gather, visit, and learn more about beekeeping at OSU's apiary in Madras. You are invited to come and discuss hive management strategies for the month and get to know other beekeepers in the OMB program and in the region. This is a casual, loosely structured event intended to provide a learning experience in a relaxed setting.

Save the date:

Next and last *Saturday/Sunday in the Apiary* this season: weekend October 8-9, 2016

What is the best time to meet?

Saturday 10am to 12pm

Sunday 10 am to 12pm

Sunday 1pm to 3pm

Please, if you can't make it to the September workshop, let Heike know at heike.williams@oregonstate.edu what time would you prefer in October. Thank you!
